

Overview: Beyond Engagement

be ENERGIZE YOUR PEOPLE

WWW.JUICEINC.COM

Energized Employees Get Better Results

We think organizations are a bit like Smartphones; when they're fully juiced, productivity is uninterrupted - when they run out of juice, some of the most important calls don't get made and some of the most important messages don't get sent. That's why we at Juice Inc. are so focused on energy - we know that energized employees fuel great customer experiences and better business results.

Our obsession with energy goes even deeper. We believe that every employee deserves to have energy left over at the end of the day - energy for themselves, their partners, their kids, and their communities. And our work with organizations over the past 20 years has revealed the biggest obstacle to energized workplaces: how leaders think about engagement. Leaders who leverage the science of energy will unlock their people's potential and fuel great customer experiences, innovative ideas and deliver great business results.

Based on the book *Beyond Engagement*, this interactive training will equip leaders and teams with the knowledge, skills and tools that are critical to partnering with people to remove interference and optimize energy by understanding and tapping into what matters most to their people.

BE MANAGER'S TOOLKIT: To supplement the classroom learning, the BE Manager's Toolkit provides participants with an implementation guide and a complete suite of tools to bring the Beyond Engagement framework and tools to life back at work.

Beyond Engagement

“If we get the employee experience right, the employees take care of our customers, which in turn will improve our results.”

Learning Objectives

Participants will learn to:

- Achieve results by partnering with people without micro-managing.
- Explore the five driving needs framework and apply it in a variety of leadership contexts.
- Get the best out of people by minimizing the things that fractionalize their performance.
- Boost engagement and energy with their team by tapping into what matters most.
- Identify and harmonize competing needs and priorities.
- Use practical tools to improve how you engage others in achieving results.

Service Offerings
